SUMMARY

Computer Science student at the University of Wollongong Malaysia on the High Achievers Scholarship and a Top Coder Malaysia 2026 finalist (5th at university level). Founder of Averroes AI, where I build and ship full-stack and AI-powered apps. Also a freelance designer with a full brand system delivered for a US restaurant. Open to software development internships, part-time and graduate roles.

SKILLS

Languages	Java, Python, C++, C, JavaScript, TypeScript, SQL, HTML, CSS
Frameworks & tools	Next.js, React, Node.js, Express, Spring Boot, Prisma, Docker, Git, Jest, Firebase
Data	MySQL, PostgreSQL, MongoDB, Redis, Tableau
Design & video	Photoshop, Illustrator, Figma, Canva, Premiere Pro, After Effects
Languages spoken	English (IELTS Band 6), Bangla

EXPERIENCE

Founder & Application Developer, Averroes AI · Remote

Oct 2026 – Present

- Built Amalnama, a free offline-first Islamic companion PWA in 6 languages with an AI assistant (Gemini via Firebase AI Logic), Web Push calls and family budgeting
- Built Averroes Code, an offline code editor and compiler for C, C++, Python, Java and JavaScript with 23 courses in 4 languages
- Built Sunnah Store (sunnahstore.vercel.app), a Next.js, Prisma and PostgreSQL e-commerce site with Stripe, PayPal, bKash and courier tracking

Freelance Graphic Designer & Video Editor, Remote · clients in the USA and Bangladesh

Ongoing

- Delivered a complete brand system for The Halal Gyro Spot (Pensacola, Florida): logo, 6-page menu, Z-fold brochure, LED menu board, launch posts, app concept and promo videos
- Designed menus, social campaigns and identities for Spring Hill Deli, Panjabi Emporium and community organisations

Barista (part-time), swich caffe · Sunway Pyramid, Selangor

May 2026 – Jul 2026

- Prepared espresso drinks and served customers in a high-volume mall café; handled orders, stock checks and hygiene standards

Founder & Owner, Hidayah Shop BD · Dhaka

Mar 2023 – Mar 2025

- Ran an online store end to end: product, marketing, customer service and business strategy

Founder, Hidayah Blood Bank & Hidayah United Foundation · Bangladesh

2017 – 2025

- Founded and ran a donor network connecting patients with nearby blood donors, and a non-profit for social services

SELECTED PROJECTS

- **CloudEats**: Food-ordering microservices with an Express API gateway, MySQL, Redis, MongoDB, Docker Compose and Jest tests
- **Campus Islamic Society website**: Next.js and TypeScript site with events, prayer times and membership pages
- **Neon Battle City & City Brawler**: Browser games in JavaScript with canvas rendering, AI opponents and saved high scores
- **Online Food Ordering System**: Java OOP console application with menus, carts and orders
